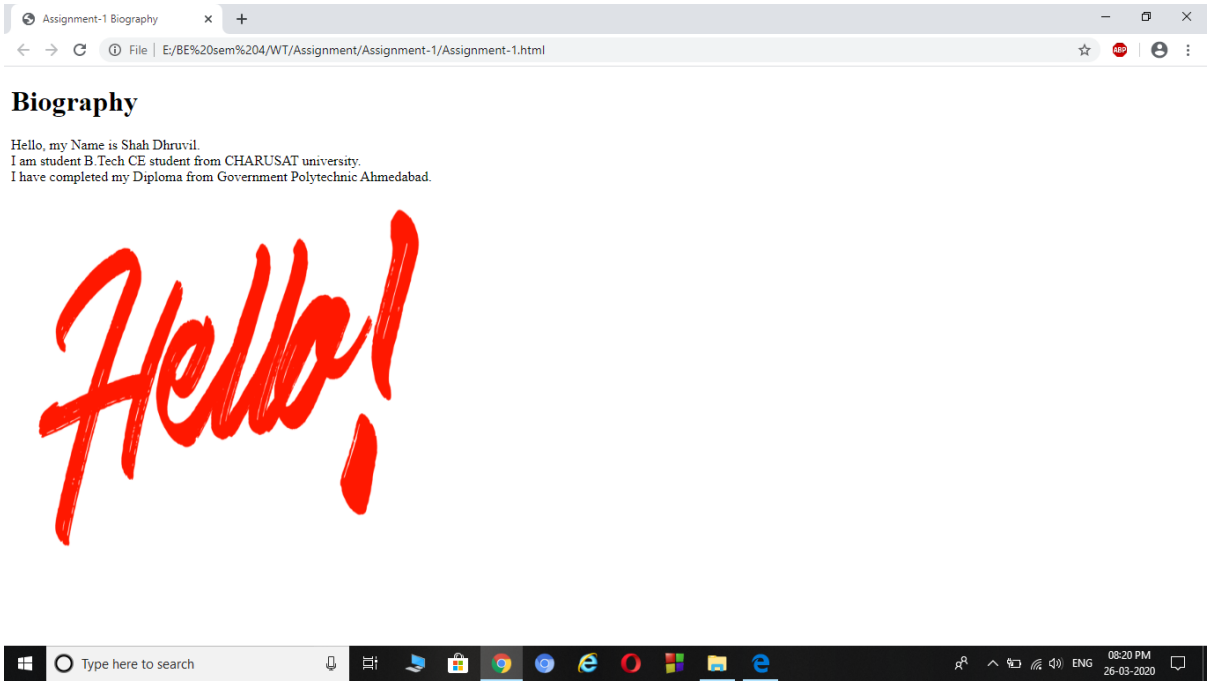
Assignment 1:

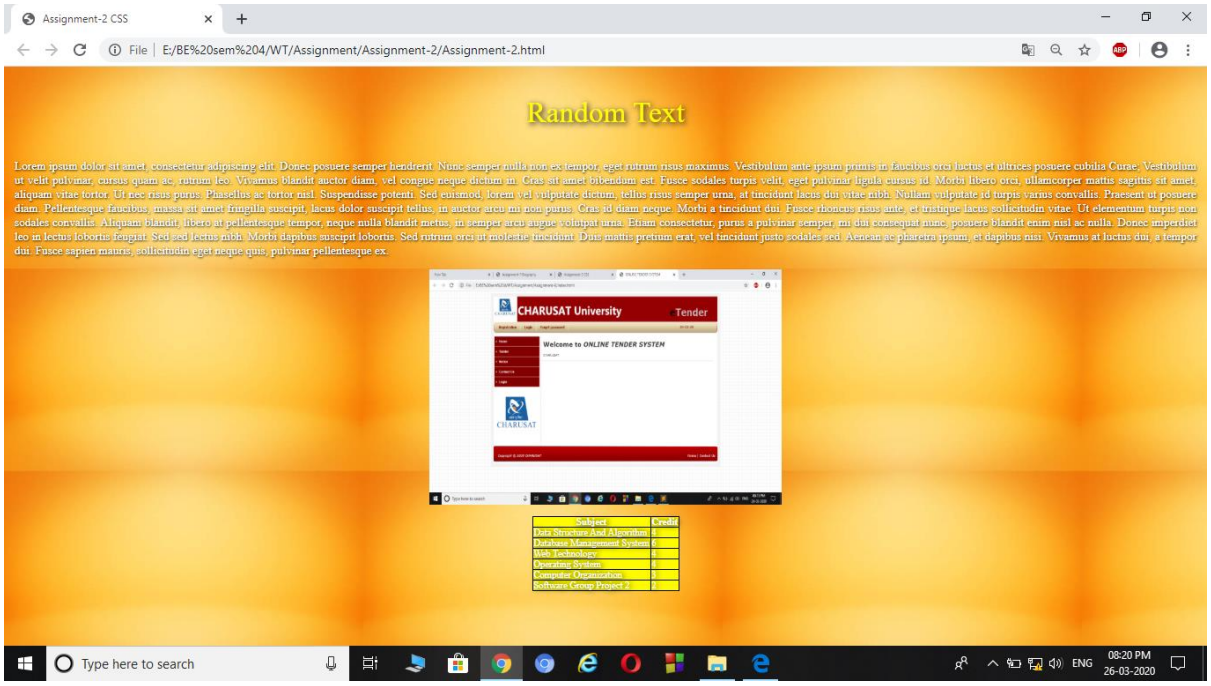
To complete this assignment, setup an HTML template. Include the following items at a minimum (This page is for small biography of individual student):

- a head section
- a body section
- text in the body section
- use of paragraph tag(s) and heading tag(s)
- at least one image embedded from an external web location (like Google Images)



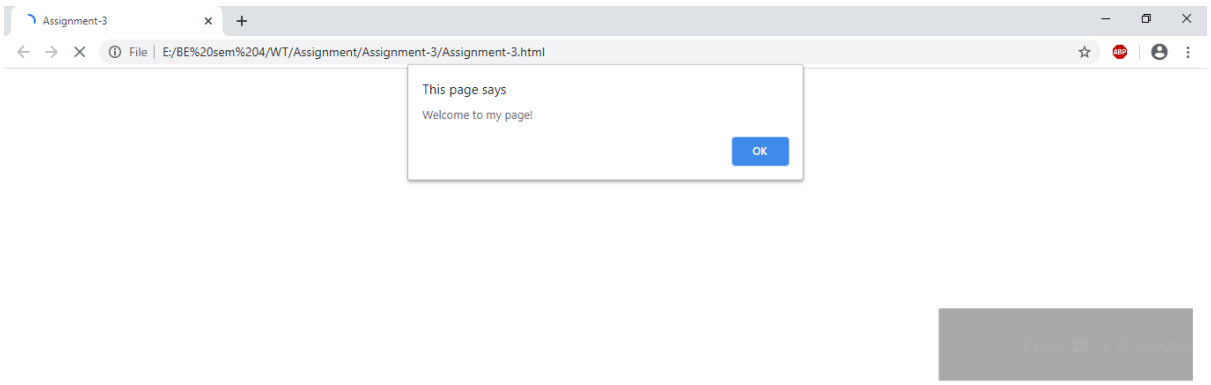
Assignment 2:

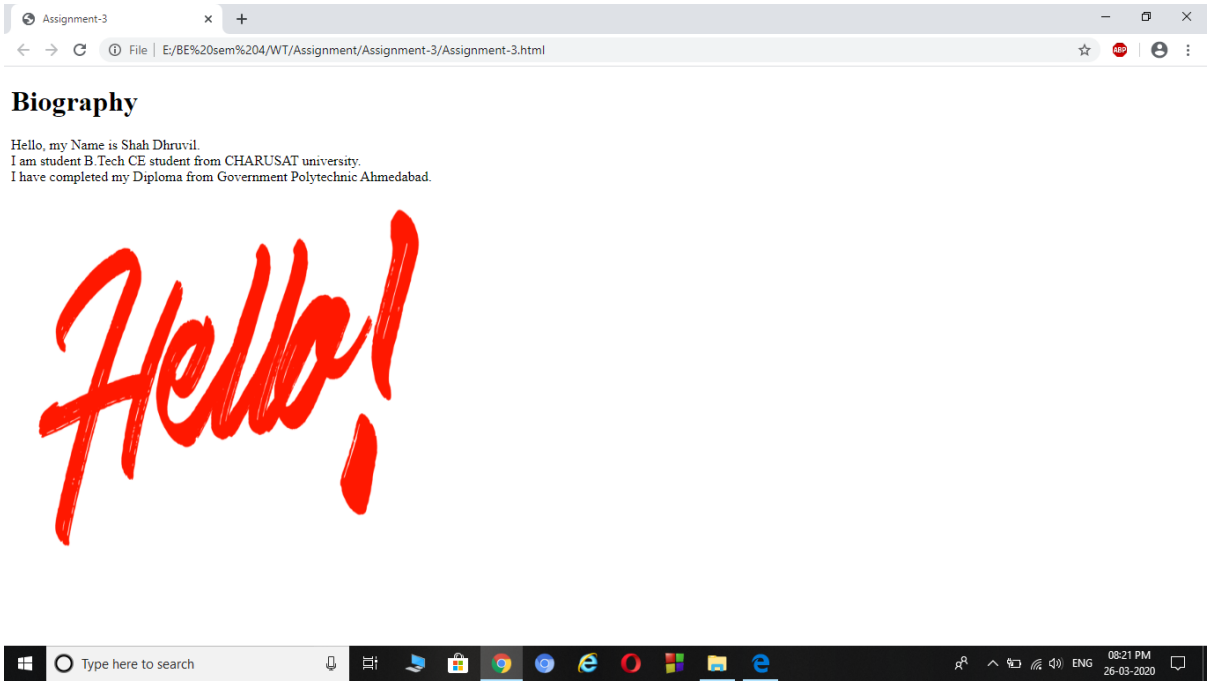
Create a new webpage that is enhanced with CSS. First create a new HTML page that includes a minimum of text (including headers and paragraph tags), images, and at least one table. This page may contain any information that you want - it can even use made up text from a text generator such as lipsum.com. Do not style in anyway with HTML, instead, create and link and external style sheet to this page that changes the format of some CSS properties.



Assignment 3:

In this one, create a JavaScript program that displays an alert that displays "Welcome to my Page!" when the user opens the page in their browser.

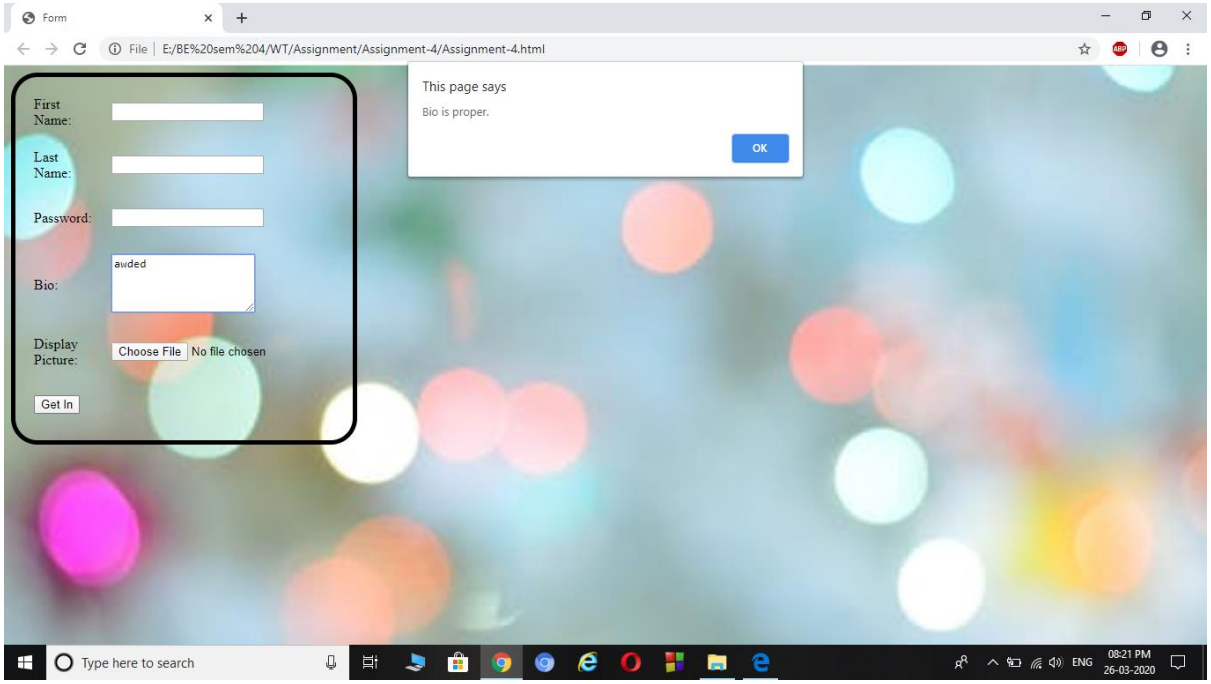




Assignment 4:

To complete this assignment, please complete all of the following requirements:

- Create an HTML page with a header and body section that includes a form.
- The form should have at least 5 input fields and one button (not an input type submit button).
- At least one of these input fields should be validated using JavaScript on an onblur event.



Assignment 5:

- Create a web page for online registration of the National Workshop on Web Technology.
- The participants can be students, faculty members, professional, company / firm representatives from different countries.
- Create the web page with required form elements and default values. The form should provide the controls for the information to accept above mentioned details as well as for personal and other relevant information. Store these data in relevant database (You can choose database at your own).
